

About AUK

The American University in Kosovo (AUK) was established in 2003. AUK is the only private, not for-profit university in Kosovo and it is the only Kosovo University teaching entirely in the English language. The fact that the teaching is done entirely in English has made AUK an attractive institution for non Albanian speakers as well and currently there are students from 21 different countries attending this University. AUK promotes and strives for a diverse environment and it sees this as part of the education we offer to our students. AUK is proud to have as its academic partner the Rochester Institute of Technology, one of the largest private educational institutions in the United States. AUK operates at its campus in Germia, in the outskirts of Kosovo's capital, less than ten minutes drive from downtown.
