

International Project Management Preparatory Program

COURSE DESCRIPTION

AUK Training and Development Institute offers comprehensive business, management and project management training, to accelerate student career advancement. All of our courses are taught by practitioner-instructors which prepare them for real-life business situations.

As project management grows in scope, importance and recognition, so do the related career and credential options available to students. AUK Training and Development Institute has successfully rolled out the CAPM (Certified Associate in Project Management) and PMP (Project Management Professional) courses.

Preparatory program in Project Management includes the five process groups (Initiate, Plan, Execute, Control and Close) and the nine knowledge fields (Communication, Time, Cost, Scope, Integration, Human Resources, Risk, Quality, Procurement), as well as the professional code of PMI.

During the ten-day intensive program, participants will learn and apply the practices of project management identified by PMI, in order to manage projects successfully.

- Development of the general managerial skills;
- Development of interpersonal skills;
- Understanding and learning of PMI terms, acronyms and definitions;
- Getting to know the main activities and their interconnections;
- Getting to know the main PMI tools and their applications;
- Getting to know the main PMI techniques and their applications;
- Getting to know the most efficient methods of project management;
- Getting to know the best practices of project management;
- Development of fundamental skills for managing a project;
- Practicing of developed skills;
- Simulation for CAPM and PMP exams
- Preparation of a study plan for PMI exams.

WHO SHOULD ATTEND

This course is designed for Project, Program and Portfolio Managers who are preparing to take the CAPM® and PMP® Exam.
